

# Lithium Battery Digital Torque Wrench

# Product Descriptions

The Kertz KETW series electric torque wrench is a portable rotary power tool featuring a digital input and display for torque settings. It includes a torque compensation function that allows for precise torque adjustments, ideal for tightening or removing nuts and bolts. The tool utilizes a highly efficient brushless DC motor, controlled by a fast intelligent chip, while its mechanical components are designed with a planetary gear reduction mechanism.

## Benefits:

- High power and efficiency courtesy of the brushless motor
- Digital input display for easy monitoring
- Intelligent chip control for high-speed performance
- Robust 18 V battery - Features Milwaukee REDLITHIUM™ protection with REDLINK™ digital overload protection to safeguard your cordless power tool investment in challenging conditions
- Input Power (W) : Lithium Battery 18 V (standard 5.0 Ah x 2 - Optional 9.0 Ah x 2)

## Technical Specifications

| Item Number | Torque Range | Square Drive S | Diameter D | Length E | Length L | Width K | Width A | Width B | Weight |
|-------------|--------------|----------------|------------|----------|----------|---------|---------|---------|--------|
|             | (N.m)        |                | (mm)       | (mm)     | (mm)     | (mm)    | (mm)    | (mm)    | (Kg)   |
