

# Cordless Impact Wrench KCIW-1834 Series

# Product Descriptions

The Kertz KCIW 1834 3/4" High Torque Impact Wrench with Friction Ring Kit presents the most powerful cordless wrench in its category, providing up to 1800 N.m of maximum fastening torque. Featuring a BL - Brushless Motor, it surpasses competitors with consistent power output, while the Kertz® designed impact mechanism also achieves up to 1800 N.m of maximum fastening torque. The Lithium 21V 5.0 Ah Extended Capacity Battery Pack ensures greater productivity per charge and enhanced performance throughout its lifespan. An onboard fuel gauge allows for accurate charge monitoring, reducing downtime on the job. This 21-volt lithium-ion High-Torque Impact Wrench enables quick, tool-free socket changes with a 3/4" friction ring anvil. Enjoy exceptional comfort during prolonged use with its new contoured soft grip. The kit comes complete with two Lithium 21V 5.0 Ah Capacity Battery Packs, a multi-voltage charger, and a convenient carrying case.

## Benefits:

- Superior performance: Delivers up to 1800 N.m of maximum fastening torque.
- BL - Brushless Motor: Out-powers competitors yet runs cooler with no wearable components
- Lithium 5.0 Ah Battery Pack (Included 2 pack) : Provides superior pack construction, electronics and performance to deliver 2X more runtime
- 3/4" Anvil with friction ring for fast, easy socket changes
- Ergonomic Design: Features a contoured soft grip for increased comfort during prolonged use, reducing fatigue and enhancing user control.
- Versatile Application: Ideal for a wide range of heavy-duty tasks, making it a perfect fit for both professional mechanics and DIY enthusiasts.
- Reliable Durability: Built to withstand tough working conditions, ensuring long-lasting performance and reliability.

## Specifications:

Voltage	21 V
Speed	4500 RpM
Power	1000 W
Chuck Size	3/4"
Torque	1800 N.m
Size	40x30x11 cm
Weight	4,2 KG

Include :  
Lithium 21V 5.0 Ah x 2
